

The Pandemic

As the sun rises
On a warm and sunny Cologne mornin'
A girl came home
During the pandemic
And her mama was worried
Because her daughter partied
During the pandemic

People don't you understand
We all should stay at home
Or the situation will be badder
Are we too blind to see,
That if we still go out
The situation won't get better

Well the girl feels her throat getting sore
And suddenly her head hurts a little more
Suddenly she is freezing
It's not good how she is feeling
During the pandemic
And she gets scared because of the test
So honey, now you have to rest
And do what's for your health best
Now you got the virus
During the pandemic.
